

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

A FEW GOOD RECIPES.

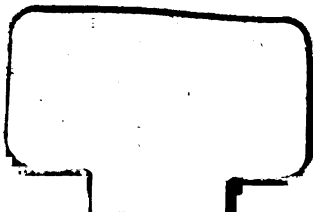

PRICE, TWENTY-FIVE CENTS.

PHILADELPHIA.

1891.

Entered according to Act of Congress, in the year 1881, by
I. WRIGHT,
in the Office of the Librarian of Congress, at Washington, D. C.
Also, Entered in the year 1887.

PREFACE.

By the ancients Dreams were universally regarded as coming from the other world, from both good and evil sources. Some of the early fathers of the Christian Church attached considerable importance to dreams, believing that they come from God, as a species of prophecy, and that future honors and dignities, medical remedies, thefts and treasures had been revealed by dreams.

The popular belief that in dreams an insight is given of coming events is shared by many well-informed persons, and is corroborated by many remarkable cases. Some of the instances recorded *may be* explained by natural means, but there are extraordinary instances which cannot be explained by natural laws; many of these are so well authenticated that they cannot be discredited, however loth we may be to accord to them a supernatural origin.

The interpretation to the dreams-recorded in this book, have been compiled from the most reliable records in existence. Space not permitting to give a full explanation of the dream and its bearing on events in life, we have confined ourselves simply to the combinations likely to be effected by the dream.

The moon exerts considerable influence on the speedy or tardy fulfillment of dreams, thus when the moon is on the decrease, some days may elapse before the fulfillment, but from the first quarter to the full of the moon, you may look for your dream to be fulfilled very speedily.

Very many of these interpretations are given by Madam La Vanie, whose name is well known as Queen of the Voodoo's throughout the Southern States, where she carefully preserved all the rites and incantations of that mysterious people as it was originally brought from Africa, where it was received direct from the Egyptians as practiced by them on the banks of the Nile thousands of years before the Christian religion.

Accordingly we have arranged them in alphabetic order for the sake of our readers to refer to them.

REMARKS.

In one wheel only.

I. 5-10. To make twos full, add one-third to the above cost.

To make threes and fours full, add one-fifth to the above cost.

II. 4-8. To make twos full, charge double. To make threes and fours full, charge half as much again.

III. Two numbers for 3 cents pay in—

6-12	5-10	4-8
\$1.	75 cts.	50 cts.

IV. Three numbers pay in—

	6-12	5-10	4-8
For 50 cents,	\$100.00	\$83.00	\$66.00
" 25 "	50.00	41.50	33.00
" 12½ "	25.00	20.75	16.50
" 6 "	12.00	10.00	8.00
" 3 "	6.00	5.00	4.00
In a Combination	1.00	.83	.66

V. Four numbers, all out, pay double as much as four numbers flat, but nothing on the threes.

VI. Single numbers for one dollar, pay in—

6-12	5-10	4-8
\$5.	\$5.	\$4.

VIII 2 nos. stations pay \$25 for 3 cents in all ballots.

IX. 3 nos. stations pay \$100 for 3 cents in all ballots.

X. 2 nos. played side in side for \$100 pay in—

6-12	5-10	4-8
\$75.00	\$62.50	\$50.00

XI. For four numbers pay for—

	6-12	5-10	4-8
25 cents,	\$100.00	\$83.00	\$66.00
12½ "	50.00	40.00	32.00
6½ "	25.00	20.00	16.00

RECIPES.

A Sovereign Remedy for Small-pox and Scarlet Fever.—Sulphate of zinc, one grain; foxglove (*digitalis*), one grain; half teaspoonful of sugar; mix with two table-spoonfuls of water. When thoroughly mixed add four ounces of water. Take a spoonful every hour. The disease will disappear in twelve hours. For children, smaller doses should be given, according to age.

Advice in Cases of Poisoning.—Stir into a glass of water a heaping teaspoonful each of salt and mustard, and drink immediately. One or more doses will cause vomiting, and cleanse the stomach. To overcome the effects, swallow the white of two or three eggs, and drink a cup or two of strong coffee.

Sweet oil, taken freely, is excellent in cases of poisoning.

The best known Cure for Diarrhœa.—Take 1 oz. Tinct: of Capsicum; 1 oz. Syrup of Blackberry Root; 1 oz. Spiced Rhubarb; 1 oz. Essence of Peppermint; 1 oz. Camphor; 1 oz. Laudanum. Dose for an adult, 15 to 20 drops. For an infant under 1 year, 5 drops; for a child from two to ten years, from 7 to 12 drops, whenever the gripes take you. If only purging without gripe, then take a dose every three hours until you feel relief. It is best taken in a wine-glassful of water or cold tea.

Balsam of Peru cures the most obstinate Cough.—Dose, half-a-teaspoonful in a tablespoonful of sweetened water three times a day, one hour after meals and at bed-time.

A positive Cure for any form of Dyspepsia.—Take one drachm of Chiretta Extract; one drachm of powdered Turkey Rhubarb; one scruple of Subcarbonate of Soda; fifteen grains of powdered ginger,—mix with flour and water, and divide into thirty-six pills. Take two in the morning, before breakfast, and at bedtime.

The Greatest Pain Remedy known.—East India Galangal Root costs only five cents an ounce. Cures Cramps, Colic, Headache, Dysentery, Neuralgia, Toothache, Rheumatism, or any pain internal or external. Grate to a powder. Dose, a level teaspoonful in two table-spoonfuls, of warm water; for bathing, pound or grate to pow-

der one ounce to a pint of alcohol. I have used these remedies, and know them to be reliable; this root will also break up Chills and Fever; where it is applied, pain cannot exist.

Positive Cure for Kidney Disease.—Take one ounce Pareir Brava and three pints of water, put in a close-covered vessel, and boil down to one pint. Take a small wine-glassful one hour before each meal.

The best Remedy known for painful Corns and Bunions. Soak in hot salt water half an hour; trim off, and apply Sargeant's Yellow Plaster, warmed.

A first-class Remedy for Colds, Cough, etc.—Two ounces Syrup of Squills; half an ounce Paregoric. Dose, teaspoonful 4 or 5 times a day.

To make White Wash that will not Run. Take half a pailful of lime and water, ready to wall, then take a quarter of a pint of flour, water, then pour on it boiling water, a sufficient quantity to thicken it, then pour it while hot into the bucket, stir all well together.

Wash for Dry, Stubborn Hair.—The best and most effective wash for this purpose consists of 1½ ounces of avoirdupois glycerine, dissolved in 1 imperial pint of any fragrant distilled water, as that of roses, or orange, or elder flowers; 15 to 20 grains salt of tartar (carbonate of potassa) per pint, is sometimes, added.

For Making Lithographic Tablets.—Glue 1 oz.; Gelatine 8 oz.; water 32 oz.; Glycerine 32 oz.. Dissolve the Glue and and Gelatine in the water over a slow fire, when at a boil, take off and add Glycerine and strain off in pans.

Stoco Wash.—Slack 1 peck of lime; 5 lbs. whiting; 5 lbs. Glue; 5 lbs. Sugar; 5 lbs. Rice; 3 pints of salt. Boil well.

Artificial Coral.—Yellow Resin 4 parts; Vermillion 1 part; melt and dip glass, twigs, cinders, stones or anything you may require for fancy work. To make a very pretty coral card basket, etc.; cut and prepare any kind of a box or basket you like, after trimming the inside to suit your fancy, cover the outside with a Solution of Shellac or mastic varnish, while wet, sprinkle it closely with rice, or small gravel stones; after the varnish is dry, dissolve

Three or four sticks of bright red Sealing-wax in alcohol; this will take three days to be properly dissolved; apply to your card box with a camel's hair pencil, and it will have a very beautiful effect.

An excellent Wheel Grease or Lubricator for heavy Machinery—can be made with equal parts of lard, plumbago and flour. First, melt the lard over a gentle fire, then add the flour and plumbago until it is thick as common paste *without raising the heat to boiling.*

Will Cure the worst case of Piles.—Take five cents worth of White Oak Bark and one quart of water, and boil to one pint, and bathe four or five times a day.

Rheumatism.—2 ozs. of Rochell salts; 2 ózs. of Gouaque; $\frac{1}{2}$ lb. of Hemlock, put in one quart of water and boil down to one pint, add one quart of the best of brandy. Dose —for a ~~g~~ ^{man} person one tablespoonful three times a day. ~~by the~~

or two of st. the Taste of New Wood.—A new keg, churn, ~~or~~ ^{or} other wooden vessel, will generally communicate a disagreeable taste to anything that is put into it. To prevent this inconvenience, first scald the vessel well with boiling water, letting the water remain in it till cold. Then dissolve some pearl ash or soda in lukewarm water, adding a little bit of lime to it, and wash the inside of the vessel with the solution. Afterwards scald it well with plain hot water, and rinse it well with cold water before you use it.

To Cure Damp Walls.—Boil two ounces of grease with two quarts of tar, for nearly twenty minutes, in an iron vessel, and having ready, pounded glass, one pound, slacked lime two pounds, well dried in an iron pot, and sifted through a flour sieve. Add some of the lime to the tar and glass, to make it the thickness of a thin paste sufficient to cover a square foot at a time, as it hardens so thick. Apply it about an eighth of an inch thick.

For Cleaning Oil Paintings, Wainscoting, or Furniture.—Smash or grate into clean water raw potatoes, sufficient to form a thin paste, add fine powdered pumice-stone or fine sand, and with a sponge well clean the work, then finish with water and a cloth. When dry, polish or varnish may be applied.

Kalsomining Walls.—Kalsomining is a species of white-washing, but differs from it in that, instead of lime, Paris

white is used. This paint is a sulphate of baryta, and may be procured at any drug or hardware store. In order to prepare kalsomine, soak one-fourth of a pound of glue over night in tepid water. The next day put it into a tin vessel, with a quart of water, set the pail in a kettle of water over the fire, and keep it there until it boils, and then stir constantly till the glue is dissolved. Next take from six to eight pounds of Paris white, in another vessel, pour on hot water and stir until it has the appearance of lime milk. Add the sizing, stir well, and apply it to the wall with an ordinary whitewash brush while yet warm.

A New "Insecticide."—Hot alum water is the most recent insecticide. It will destroy red and black ants, cockroaches, spiders, and other crawling pests which infest our houses. Take 2 pounds of alum and dissolve in three or four quarts of water; let it stand on the fire till the alum disappears; then apply it with a brush, while nearly boiling hot, to every joint and crevice in closets, bedsteads, pantry shelves, and the like.

To Whiten Ceilings or Walls.—Take the best whiting, and break down in water; then boil some parchment cuttings three hours, and strain off the liquor after the whole is mixed together. London size will be a good substitute for the above; if the double size, use nearly half water; if the single use none. You must test the size, as some is much stronger than others. You may add a small piece of blue-black to the whiting, and before using this wash you may stir in a little turpentine.

Water Proof Oil Paste Blacking.—Take camphene, 1 pint, and put into it all the india rubber it will dissolve; when dissolved, add currier's oil, 1 pint; tallow, 6 lbs.; lamp-black, 2 ounces. Mix thoroughly by heat.

This is an excellent thing for old harness or carriage tops, as well as for boots and shoes. The rubber can be dissolved in the oil by setting them in rather a hot place for a day or two; this would save the expense of camphene, as that is no use only as a solvent to the rubber.

To keep paste from Souring.—The souring and moulding of paste used by book-binders, and workmen in other trades, which according to circumstances, occurs in about two or three days, may be entirely avoided, by the addition and thorough mixture with the freshly prepared paste of a few drops of salicylic-acid. When thus treated, a paste may be kept for weeks in a heated room and without losing its freshness, and even when it has, by long

standing, become dry and tough, may be at once rendered fluid and serviceable by treatment with hot water. The addition of the acid does not effect the stickiness of the paste to any sensible degree. The above item will, doubtless, prove serviceable likewise to all who have only occasionally to make use of paste.

To Prevent Gas-Meters Freezing.—To prevent water freezing in the gas-meter, add glycerine. The proper proportion is one pint of glycerine to a gallon of water.

Business Law.—It is not legally necessary to say on a note "for value received."

A note drawn on Sunday is void.

A note obtained by fraud, or from a person in a state of intoxication, cannot be collected.

If a note be lost or stolen, it does not release the maker; he must pay it.

A note given by a minor is void.

Notes bear interest only when so stated.

Principals are responsible for the acts of their agents.

Each individual in a partnership is responsible for the whole amount of the debts of the firm.

Ignorance of law excuses no one.

It is fraud to conceal a fraud.

The law compels no one to do impossibilities.

An agreement without consideration is void.

Signatures made with a lead pencil are good in law.

A receipt for money paid is not legally conclusive.

The acts of one partner bind all the others.

Contracts made on Sunday cannot be enforced.

A contract made with a minor is void.

A contract made with a lunatic is void.

To Take Stumps out of the Ground.—Take Saltpetre; and bore 2 or 3 auger holes and fill up and stop the holes; let it lay about six or seven months and then set fire to them and they will burn out.
